

Nesten Quick Start Guide

Version 1.1

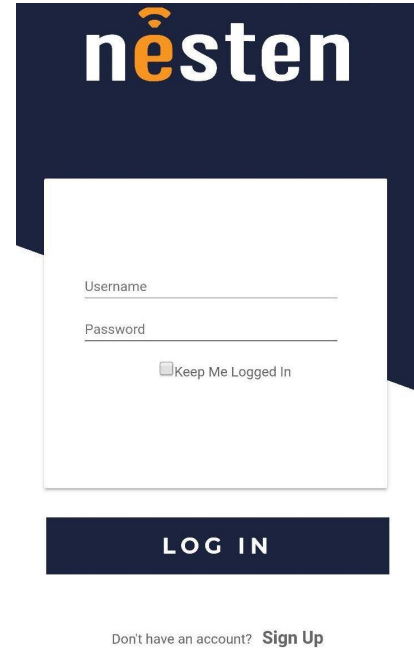

Installation and Setup

- Install the Nesten application from Google Play Store or Apple Store
- Make sure bluetooth is enabled on your phone
- Connect Nesten G1 device to power and internet through either ethernet or wifi
- Have a Nesten wallet setup with an NIT wallet address
- Have either the NIT wallet address written on another piece of paper or a screenshot of the receive page for your NIT wallet address available

Account Sign Up

- Open the Nesten application once it has been installed
- Press the Sign Up button at the bottom of the login page

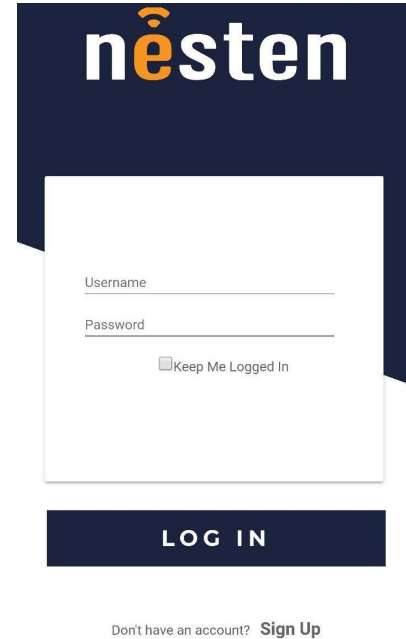

The image shows a screenshot of the Nesten application's login page. At the top, the 'nēsten' logo is displayed in white and orange on a dark blue background. Below the logo is a white login form with two input fields: 'Username' and 'Password'. A checkbox labeled 'Keep Me Logged In' is positioned below the password field. At the bottom of the form is a dark blue button with the text 'LOG IN' in white. Below the button, there is a link that says 'Don't have an account? Sign Up'.

Account Sign Up

- Enter your email, username, and password making sure that the password complies with the requirements listed and tap confirm
 - Minimum of eight characters
 - Contain at least one character from each of the categories
 - Lowercase letter
 - Number
 - Example Password: password1
- **IMPORTANT: If you do not verify the link sent to your email you will not be able to login to your account**

Login

- After confirming the verification that was sent to your email log into your account through the login page

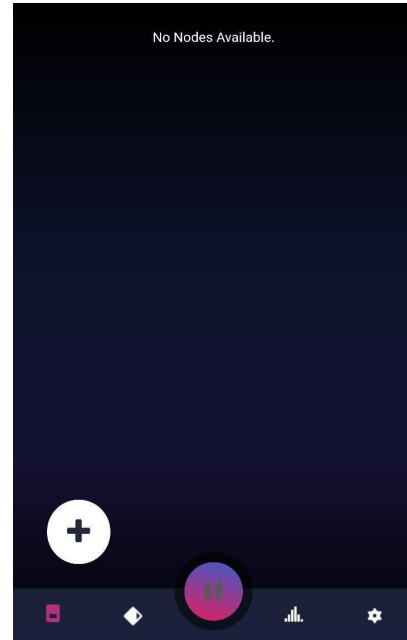

The image shows a login form for the 'nēsten' website. The form is set against a dark blue background with the 'nēsten' logo at the top. The logo features the word 'nēsten' in white, with a small orange antenna-like symbol above the 'e'. Below the logo is a white rectangular form containing the following elements:

- A 'Username' label followed by a text input field.
- A 'Password' label followed by a text input field.
- A checkbox labeled 'Keep Me Logged In'.

Below the form is a dark blue button with the text 'LOG IN' in white, uppercase letters. At the bottom of the page, there is a link that says 'Don't have an account? Sign Up'.

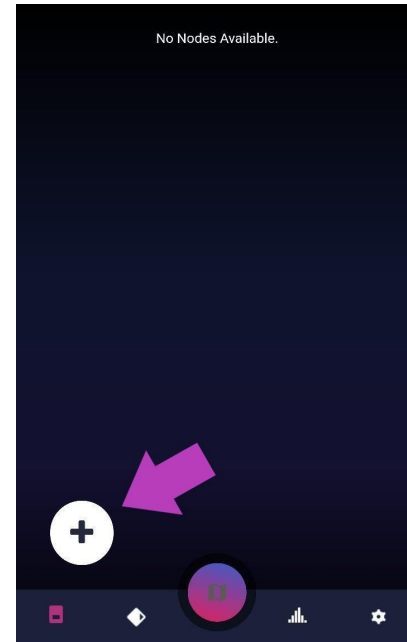

Connect Application to G1 Node

- Tap on the leftmost button on the bottom navigation bar to access the Nesten application node page
- Make sure that you are close to your G1 Node and that it is running
- On your G1 Node access the system information page where the QR code is available

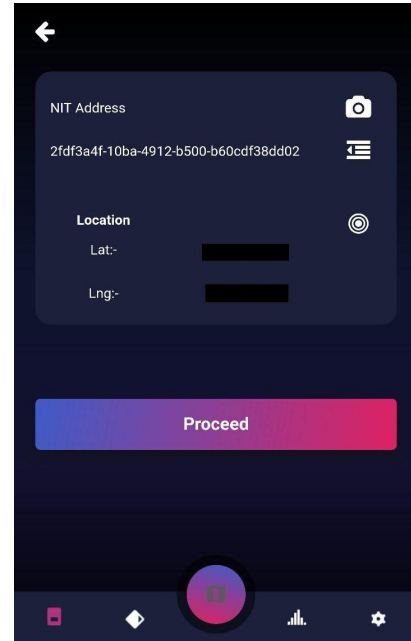

Connect Application to G1 Node

- On the Nesten application node page, tap on the add node button
- When the camera is activated on your phone scan the QR code on the G1 Node screen
- Keep the phone close to the G1 node throughout the rest of this connection process

Connect Application to G1 Node

- You will now see the registration page for the G1 Node
- If your NIT wallet address is written on paper manually enter the address into the input box on the page
- If your Nesten wallet send page is screenshotted on a separate device, tap on the camera button next to the input box and scan the QR code for the NIT wallet address
- Generate a Gateway ID by pressing the button next to the Gateway ID input box

Connection Complete

- On the registration page tap proceed once the NIT wallet address has been entered and the Gateway ID has been generated
- You will be returned to the node page with the G1 node that was connecting showing on the page
